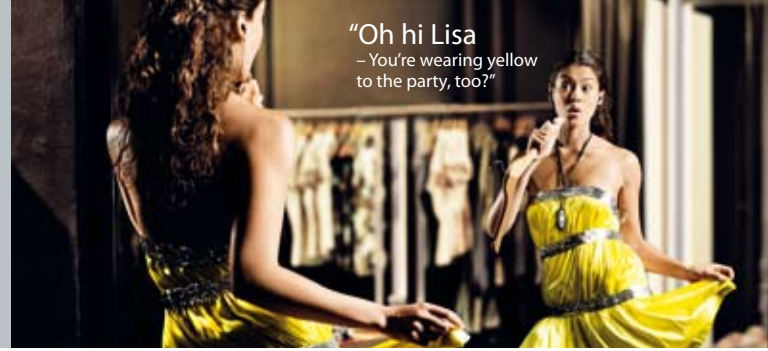
Jabra BT320s



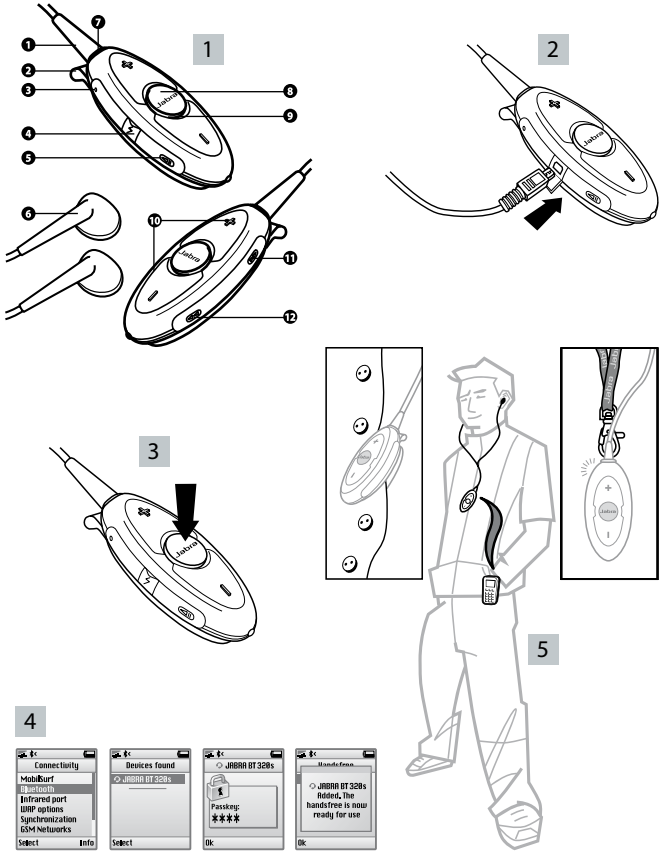
Lost in music - still in touch

Lost in music
You are out and about – enjoying some time on your own. You put on your favorite stereo headset, turn on the music and pump up the volume. It drowns out everything, as you get into the rhythm. You can't help grooving to the music, forgetting everything around you. Meanwhile your friends are trying to reach you on the phone. But how can they get through?

- still in touch
With the Jabra BT320s there is no need to turn down the volume on your favorite tunes so you can listen out for the phone. This Bluetooth stereo headset automatically switches from music to phone mode whenever a call comes in. That way you're always free to crank up the sounds, yet stay in touch.

Jabra delivers
The latest from Jabra, the Jabra BT320s is a leading edge, wireless high-performance Bluetooth stereo headset. It unties you from your mobile phone, music player or other Bluetooth device, so you can be on the move while listening to music. Yet at same time it keeps you within reach. Once again, Jabra delivers on its promise to constantly develop new products that take freedom, design and innovation to the limit – which is why Jabra is the leading brand of audio products for the mobile consumer market.

So, next time you're up to your ears in music but don't want to miss out on calls, why not… **Release your Jabra**



Quick start guide

Pairing the Jabra BT320s to a Bluetooth device

1. Charge your Jabra BT320s until the LED turns green (approx. 2 hours)
2. Make sure the Jabra BT320s is switched off
3. To put the Jabra 320s in pairing mode, press and hold the answer/end button until the LED stops flashing and turns solid blue
4. Set your Bluetooth device to "discover" the Jabra BT320s (see your device user guide)
5. Press Yes or OK when asked if you want to pair with the Jabra BT320s
6. Enter passkey or PIN = 0000 (4 zeros), then press Yes or OK
7. Your device will confirm when pairing is complete and the LED on your headset will flash**

Playing stereo music
Activate your music and use the intuitive controls on the clothing clip to manage your music.

Making a call
Just dial the number on your phone's keypad and press send. Once the call goes through it will automatically transfer to your headset. *

Answer a call while playing music
The music pauses/stops automatically when a call comes in*. Press the answer/end button and the call will connect.

* Device dependent
** To have the benefit of stereo sound and remote control of the headset, your other Bluetooth device must support the following profiles: A2DP for advanced audio (stereo), AVRCP for remote control and Bluetooth headset and hands-free profiles.

1. Headphone connector (detachable)
2. Clothing clip with lanyard loop
3. Microphone
4. Charging socket
5. Play/Pause/Stop button
6. Stereo headphones (exchangeable)
7. Headphone socket (3.5 mm jack)
8. Answer/end button
9. Light indicator (LED)
10. Volume up (+) Volume down(-)
11. Next track
12. Previous track
